

WESTERN PAPER INDUSTRIES (PVT) LTD  
*Srilanka*

# PRODUCT BROACHER

*Your Trusted Partner in Quality*

## Back Ground ....

Western Paper Industries (Pvt) Ltd (WPI) was a brain child of a Sri Lankan entrepreneur. This was one man's dream that took its fledgling steps in back in 1988. Having identifies an unfulfilled demand in the garment industry for certain product; this company was set up to fulfill this requirement. WPI provided converted paper solutions to the garment industry which was a major source of income for the economy of the county. The Managing Director had one vision: that is to provide these essential products to the garment sector while ensuring that customer expectations were met or exceeded. This was the beginning of the modest company that was to grow from strength to strength to a substantial organization with a management team with experience and dedication.

As visualized by its Managing Director, this company became one of the most reliable and largest paper suppliers to the apparel industry. WPI converted papers and boards have enabled, through its consistent quality and delivery, uninterrupted operation in the cutting rooms of thousands of garment factories.

Constantly on the lookout for meeting customers' wants, WPI found a window of opportunity when there was a requirement for packaging tapes. In 1996 WPI introduced its own brand of tape "Accura" for industrial use. This proved to be a remarkable success due to its quality and performance and became known as one of the best packaging tapes. This became another milestone for the company. Following this success it was only natural that the company began to offer several varieties self adhesive tapes to various other segments as well. Masking Tapes and Double sides tapes were introduced successfully the adhesive tape family in 2002.

As a new strategic business unit, the company ventured into paper cores and paper tubes, having identified requirements in Tea, Garment and other industries. By using good quality papers and adhesives to manufacture paper tubes according to the customer's requirement, the company built a reputation as a supplier of quality products.

With its experience in producing self adhesive tapes, WPI took a tentative step in 2002 to manufacture sticker paper in Sri Lanka. WPI Syndicate (Pvt) Limited was established as a separate entity to focus on the sticker paper manufacturing and distribution. Advance technology backed Silicon Coating, Poly coating & Adhesive coating processes aggravate the srilanakan sticker manufacturing capacity due to WPI syndicate innovations. Within a year of setting up WPI Syndicate (Pvt) Ltd (WPIS), sister company of Western Paper Industries (Pvt) Ltd., had its own product portfolio with ordinary sticker Varsity but also numbering stickers, thermal transfer stickers, price marking stickers and many more.

Having established its reputation in Sri Lanka, WPI spread its wings to export market as well. Its own brand "Accura" has gained and established its reputation in the local market and inevitably, the brand's reputation was gained popularity in garment industries overseas as well. Modern technology based printing solutions became the newest venture of the WPIS group of business units.

With the addition of printing solutions WPI became a total solution provider. This was a role model for the industrial growth of the Sri Lanka. WPI has another brand "SEGURO" adhesive tapes have been catering to the retail market since 2009.

Western Paper Industry (Pvt) Ltd's textbook success story is due to the futuristic vision foreseen by its founder. As a responsible entity, WPI indirectly contributes to the country's economy and social development. Over that last twenty five years the company has reached several milestones, but it will not rest on its laurels until several more are reached. The company is determined to travel further with the MD's guidance and the support of experience and dedicated management, not only to reach its own goal but contributing and developing to the growth of the economy and the society as well

## **TAPE SOLUTIONS**

Our tape solutions protect your inner quality of the products due to our standardized manufacturing process.

### **01. B.O.P.P Self Adhesive Tapes**

Acrylic base adhesive coated B.O.P.P adhesive tapes highly effective for the packaging & sealing purposes. As tape manufacture we are strong enough to provide any width & any length on varying requirements of the customers. Clear Tapes, Color Tapes, Clear Printed Tapes, Color Printed tape consist in B.O.P.P Self Adhesive tape product portfolio.

#### **Product Description**

Trade Mark	: -	Accura
Type	: -	Adhesive Tape
Product Verities	: -	Clear Tapes, Color Tapes, Clear Printed Tapes, Color Printed Tapes
Material	: -	Biaxially-Oriented Polypropylene (BOPP) Film
Adhesive	: -	Water Base Acrylic adhesive
Applications	: -	Sealing, Wrapping, Branding, Bundling & surface covering
Target market	: -	Local & Global Market

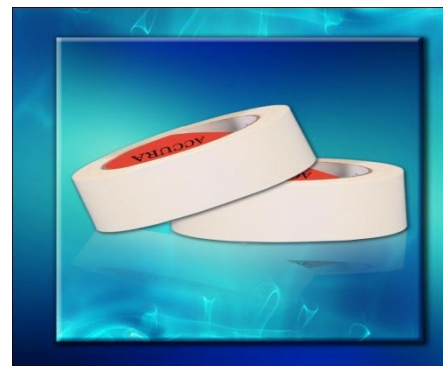

### **02. Double sided Tapes**

Double side Hot met Adhesive coated best quality tissue base double side tapes satisfying different kind of industrial requirements .Strong adhesion power & eco friendly double side tapes creates safe operational back ground for the users. White color double side tapes available in any length and any width.

#### **Product Description**

Trade Mark	: -	Accura
Type	: -	Adhesive Tape
Product verities	: -	Paper base Double side tape
Material	: -	Tissue & White Silicon Paper
Adhesive	: -	Hot melt adhesive
Applications	: -	Bonding, Decoration & garment hanging
Target market	: -	Local & Global Market

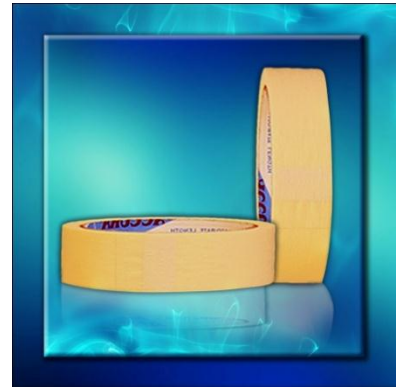

### 03. Masking Tapes

Basically craft work, Painting & automobile industries apply masking tapes for different purposes including garment industry. Western paper industries (pvt) Ltd made hot melt adhesive coated masking tapes can remove easily without any stain marks from applied surface. Masking tapes highly resistance with varying temperatures while facilitating with strong bond.

#### Product Description

Trade Mark	: -	Accura
Type	: -	Adhesive Tape
Product Verities: -	General Masking Tape	
Material	: -	55GSM Crepe Tissue Paper
Adhesive	: -	Hot melt adhesive
Applications	: -	surface covering, Bonding, Sealing
Target market	: -	Local & Global Market

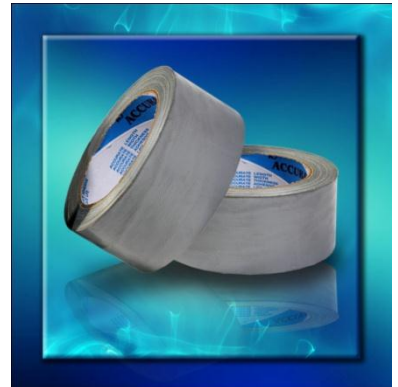

### 04. Duct Tape

Pressure sensitive rubber base hot melt adhesive coated water proof duct tape is prepared for heavy duty applications. Very strong bonding power & special rubber coated fiber web backing add extra power to the bonding operation. Construction industries & different kind of organizations successfully apply duct tapes in different requirements.

#### Product Description

Trade Mark	: -	Accura
Type	: -	Adhesive Tape
Color	: -	Shinny silver
Product Verities: -	Cloth tape	
Material	: -	Rubber base fiber web consist backing
Adhesive	: -	Pressure sensitive rubber base hot melt adhesive
Applications	: -	Air conditioning plant constructions, Heavy duty bonding, Edge covering, Gage improving
Target market	: -	Local & Global Market

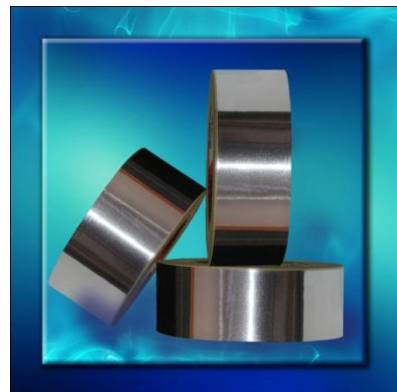

### 05. Aluminum Foil Tape

Deadly smooth aluminum foil sticker with silicon paper. Water base adhesive coated this tape variety using for varying purposes of different industries. Easy treatable shiny aluminum foil tape can be available on customer requirement.

#### Product Description

Trade Mark	: -	Accura
Type	: -	Adhesive Tape
Color	: -	Shinny silver
Product Verities	s: -	aluminum foil tape
Material	: -	Aluminum foil & silicon paper
Adhesive	: -	Water base adhesive
Applications	: -	Air conditioning plant constructions, surface covering, Bonding
Target market	: -	Local & Global Mar

## 06. Paper Tapes

Superior quality silicon Coated hot melt coated Kraft paper tapes using for many different purposes based on varying requirements. Writable surface of the tape is the main specialty of the Kraft paper tape made by the Western paper industries (pvt) ltd. This special packaging tape significantly wrathful for eco friendly system followed packaging solution seekers.

### Product Description

Trade Mark	: -	Accura
Type	: -	Adhesive Tape
Product Verities	s: -	Kraft paper Tape
Material	: -	Silicon coated Kraft paper
Adhesive	: -	Hot melt adhesive
Applications	: -	Packaging, Sealing, Decorating, Wrapping

## 07. Pilfer Proof Tapes

This tape has specially designed for the security sealing proposes. Dried water base adhesive coated Paper base tape consists with web of thread to technical purpose to enhance the security of the package. Well stickered pilfer proof tape create damage to the relevant surface when it is removing. This tape is also eco friendly product, solute the matter of eco friendly packing solution required customers.

### Product Description

Trade Mark	: -	Accura
Type	: -	Adhesive Tape
Product Verities	s: -	Kraft paper Tape (printed /unprinted)
Material	: -	Dried water based adhesive coated Kraft Paper
Adhesive	: -	Water based Adhesive
Applications	: -	Packaging, Sealing, Wrapping & security sealing
Target market	: -	Local & Global Market

## 08. Easy Tear Tapes

Mini Stationary tape or Easy tear tape use for official use & different requirements of FMCG & many more industries .Western Paper industries (Pvt) ltd manufacturing easy tear tapes in different length & widths according to the customer requirement .Water base adhesive coated our B.O.P.P easy tear tape easy to handle & protect the quality of the operation .

Trade Mark	: -	Accura
Type	: -	Adhesive Tape
Material	: -	Biaxially-Oriented Polypropylene (BOPP) Film
Adhesive	: -	Water Base Acrylic adhesive
Applications	: -	Sealing, Wrapping, Branding, Bundling & surface covering
Target market	: -	Local & Global Market

## 09. Dust Remover Tapes

Hot melt adhesive coated sticker base this product use for remove the dust, fabric partials or other unnecessary particles from the relevant surface. This special adhesive roller basically use by the garment industry to give perfect clean surface to their garment base products. This roller consist with more than fifty layers each of them powered with adhesive which can attract the particles .Simple moving of the roller on relevant surface is just enough to remove all particles while saving your time & money.

### Product Description

Trade Mark	: -	Accura
Type	: -	Adhesive Tape
Color	: -	Milky White
Product Verities	s: -	Dust removing sticker tape
Material	: -	Silicon Paper
Adhesive	: -	Hot melt adhesive
Applications	: -	remover unnecessary particles on surfaces (Fabrics, Clothe, Etc)
Target market	: -	Local & Global Market

## **Paper Solutions**

Western Paper Industries (Pvt) Ltd is pioneer solution providers for the paper related requirements. According to the customer requirement we can offer customer to select most suitable solution within our vast range of paper products manufactured by our team of experts. Garment industry, Porcelain industry and others purchase our products for their requirement.

### **01. Plotter Paper**

This high quality paper is mainly uses for cutting room requirements to draw designs for cutting purposes. This pure white color paper is good in strength and protects the printer's head as it does not release dust. According to customers requirement we can change the product thickness ranging from 50 to 80 GSM to any width and length.

#### **Product Description**

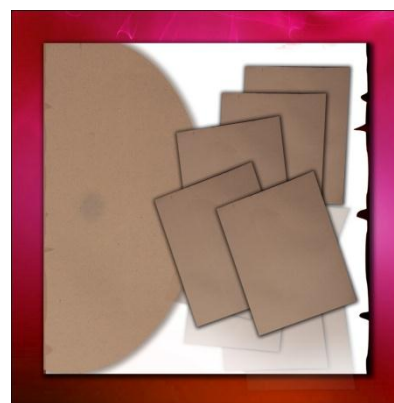

Trade Mark	: -	Accura
Type	: -	Paper
Color	: -	Pure White
Product Verities	: -	Plotter Paper
Applications	: -	Draw designs, laying purposes, garment cutting room requirements, etc
Target market	: -	Local and global market
Industry	: -	Garment and others

### **02. Marker Paper**

Marker/News print paper is uses by the garment industry to draw apparel designs or under layer paper for cutting table. This grey color paper is available in 45-50 GSM. We are able to provide any width or length based on customer requirements.

Trade Mark	: -	Accura
Type	: -	Paper
Color	: -	Light ash color
Product	: -	Marker paper /News Print Paper
Applications	: -	Draw designs, Laying purposes, garment cutting room requirements Etc
Target market	: -	Local and Global Market
Industry	: -	Garment and others

Trade Mark	: -	Accura
Type	: -	Paper
Color	: -	Different colors
Product	: -	Tissue Paper
Applications	: -	Laying and separation purposes, garment cutting room requirements, quality Protection, etc
Target market	: -	Local & Global Market
Industry	: -	Garment industry, FMCG, Porcelain, etc

## 07. Silicon Papers

We are manufacturing silicon papers as per the requirement of the customer. Silicon coated & Ploy coated process done through the highly qualified professional team of engineers. Yellow color & white color silicon papers used by the sticker manufacturers & many different industries for vast range of purposes .we are rich enough to provide best quality Silicon papers in any length & width.

Trade Mark	: -	Accura
Type	: -	Paper
Color	: -	Different colors
Product	: -	Tissue Paper
Applications	: -	Laying and separation purposes, garment cutting room requirements, quality Protection, etc
Target market	: -	Local & Global Market
Industry	: -	Garment industry, FMCG, Porcelain, etc

## **Paper Core /Tube Solutions**

Western Paper Industry (Pvt) Ltd manufactures superior quality paper tubes to customer requirements. We have the capacity to manufacture any inner diameter, outer diameter, any thickness and any length. Paper tubes, paper canisters, bent /folding cores are the main categories we are producing under the Paper Tube range. Inner printed, outer printed, silicone coated, poly coated, laminated or colored process are also available in the paper tube production process. Hence customer has the choice to purchase any requirement with our paper tube production process.

Trade Mark	: -	Accura
Type	: -	Paper Tubes
Color	: -	Brown & color
Product Variety	: -	Paper tubes, Paper canisters, Bent /folding cores
Applications	: -	Winding purposes, packing, Handy craft manufacturing & other
Target market	: -	Local & Global Market
Industry	: -	Garment industry & etc

### **01. Bended paper cores**

Our superior quality edge bended paper cores basically apply for wind up Yarns & fabrics use by the garment industry. As per the requirement of the customer production process, we customize the paper core production on thickness, color, way of edge bending, length, inner diameter & every dimension. We are guarantee our Very strong & high quality paper tubes reusable & give optimum solution for customer expectation.

## 02. Canisters & Spools

Western paper Industries (Pvt)ltd manufacturing paper canisters for many industries such as Tea, FMCG & many more .Mainly our production process focused on quality of the product & the requirement of the customers. Inner foiling, Printed, Unprinted, Laminated facilities consist production process can cater to any requirement of the customer while changing the thickness, strength, length & inner diameter.

Paper spools are one product producing under the paper cores. We are supplying any kind of paper spools as per the requirement of the customers. Required strength, color, Print, size of spool can supply accurately with our capacities of production.

## 03. Paper Tubes

Western Paper Industries (Pvt) ltd renowned as best paper tube manufacturer & supplier all over the country. Tea, Garment, printing &Packaging industry, FMCG, Phamsutical & substantial amount of industries fulfill their paper core requirements with our quality products. Customized manufacturing process rich enough to deliver paper tubes according to the customer expectation. Team of Experts supervises the every step of the paper core manufacturing process to protect the quality standards &enhance the satisfaction of the customer. We are capable to provide color paper tubes, Printed (Inner, outer), and unprinted paper tubes with different thicknesses & lengths. Inner diameter also can develop according to the customer need.

## **Our Specialty**

### **Manufacturing facility**

Our company armed with modern technology base machinery planted three main factories to conduct high quality production process focusing on customer satisfaction. We are significantly consider on actual requirement e of the customer to deliver customize production with our manufacturing facility .Professionals & Experts in the field closely supervise the manufacturing process while ensuring world recognized production standards.

### **Research & Development facility**

Research & Development team navigates the company to the successes & creates powerful competitive edge by generating innovations & best solutions to our customers & to the world. Well trained staff & specialists' utilized well-known technology & high tech tools, methods & chemicals to provide customize pioneer solutions for customers.

### **Technical Service Facility**

Our well experience team of technical Service standing for shoots customer matters within short will of period at customers place. We are always caring on our customers' process efficiency, hence our technical team not only solute technical matters of the customers but also take actions to prevent matters by enhancing the knowledge of relevant parties.

### **Free Delivery**

Convenience of the customer is main objective of our organization. We are investing on modern transport models to deliver products on time to the customers' door step. We have covered the all parts of Sri Lanka to distribute our customers required products at zero cost.

### **Supply Chain Management**

World most professional & high quality raw material suppliers contact with us to fulfill our customer requirements at top great. Market intelligence based analysis direct our team of supply chain management to build up strain less supply flow under the supervision of well experienced staff. Due to the strengthen of our supply chain management process we are certifying to our customers their process will not drop down due to lack of raw materials & poor quality supplying by us.
